DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 60 recites the limitation "said vehicles". There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 3628

4. Claims 43-57 and 60-63 are rejected under 35 U.S.C. 102(e) as being unpatentable over Stewart et al. (US 6,452,498)

Stewart et al. teaches a method for displaying promotions information to a vehicle substantially claimed including:

transmitting information identifying a person associated with said vehicle occupant (abstract; col.1, lines 18-23; col.2, lines 35-col.3, line 19);

storing data corresponding to promotions information target for said person based on a purchase history of said person (col.8, lines 23-28; claims 1-93);

monitoring a position of said person in relation to store with which the promotions information is associated (col.6, lines 14-37); and

automatically displaying said data on an interior display after it is automatically detected by said monitoring step that said vehicle comes within a defined proximity to the store with which said promotions information is associated (col.6, lines 14-37).
